There are many things we can do for our planet!

## Recycle!

Recycling helps us save precious natural resources, but we need to encourage people to buy recycled things. The easiest way to do so is by buying them ourselves! If we separate our own waste and rubbish, keeping in mind that we are helping the planet, we will contribute to the recycling of wood, paper, iron, tin, plastic, computer parts and hundreds of other things!

Cut out pictures from old magazines, or make your own drawings, and use them to illustrate the topics mentioned on this page.

but not every man’s greed”.*
